Re: Administrative Review – Notice of Incomplete Application
Carbon TerraVault Holdings LLC (CTV) III Project
Underground Injection Control (UIC) Permit Application
Class VI Pre-Construction Permit Application No. R9UIC-CA6-FY22-5

Dear Mr. Chessum:

The United States Environmental Protection Agency, Region 9 (EPA), pursuant to 40 CFR §124.3(c), has conducted an administrative review of the subject permit application for six proposed injection wells located in San Joaquin County, California. Our review included your redacted application received on May 3, 2022 via the Geologic Sequestration Data Tool (GSDT) and your non-redacted application provided to EPA on May 9, 2022 via a shared link, and determined the application is incomplete. The additional information in the Enclosure to this letter is needed to make the application administratively complete.

Please submit the requested information by August 4, 2022. If you have any questions about this letter, please contact Calvin Ho at (415) 972-3262, or call me at (415) 972-3971.

Sincerely,

David Albright
Manager, Groundwater Protection Section
